TECHNICAL SKILLS

- Programming
- Embedded systems
- Networking

SOFT SKILLS

- Problem Solving
- Multi Tasking
- Proactive Learner
- Team Worker
- Time Management

EXTRA-CURRICULAR ACTIVITIES

- Acquiring New Technologies
- Involving in projects
- Playing Volleyball
- Playing Cricket

AREA OF INTEREST

- Internet of Things
- Cloud Computing
- Embedded Systems

CAREER OBJECTIVE

Aspiring IoT engineer with a strong passion for building innovative and impactful applications. Committed to enhancing my skills through small projects and eager to implement creative ideas in real world solutions. Seeking an opportunity to grow as a professional IoT engineer and contribute to meaningful projects that make a difference.

EDUCATIONAL BACKGROUND

- **Bachelor of Computer Science Engineering(IOT)**
  Paavai Engineering College
  Pursuing with 7.69 CGPA
- **Higher Secondary School Certificate**
  St.Joseph's Matriculation School,Pallalakuppam
  Completed with 78% in 2020
- **Higher Secondary School Certificate**
  St.Joseph's Matriculation School,Pallalakuppam
  Completed with 95% in 2022

INTERNSHIPS/WORKSHOPS

- **Skill Vertex**
  Python
  July 5,2023 - August 5,2023
- **Enthu Technology Solutions**
  Internet of Things
  July 29,2024 - August 9,2024
- **Bannari Amman Institute of Technology**
  Empowering the future of IoT
  April 12,2024 - April 13,2024
- **PSG College of Technology**
  Virtual Reality & Augmented Reality
  February 22,2025

PROJECTS/CERTIFICATIONS

- **Smart IoT and AI Autonomous water waste management**
  Smart IoT (Internet of Things) and AI (Artificial Intelligence) can revolutionize water waste management by optimizing resource utilization, reducing waste, and ensuring sustainability.
- **NPTEL**
  Cloud computing(January - April 2024)
  Introduction to Internet of things(July - October 2024)
